

Er. Lakhmi Priya Das is an active researcher pursuing her doctorate degree at computer science engineering and application department, Indira Gandhi Institute of Technology, Sarang, Dhenkanal, Odisha, India. She completed her master degree from Computer science engineering department IGT Sarang in the year 2016. She completed her Bachelor in technology in CSE from KISD Bhubaneswar, Odisha, India in the year 2013. She worked as a teacher at Kendriya Vidyalaya, Angul, Odisha, India. She is doing research on transport protocol and next generation communication networks. She has proficiency in Python, C, C++, HTML, JAVA and Matlab.

Dr. N. Nithyadevi working as Assistant professor in Department of Applied Mathematics at Bharathiar University. She has around 12 years of teaching experience and has guided 10 research associates in the field of Computational fluid Dynamics. She also has 20 publications in International reputed journals with SCI index to her credit. Her research interest includes computational fluid dynamics and its applications in mechanical engineering for thermal efficiency improvement.

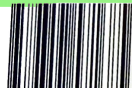

Dr. Akula Chandra Sekhar is working in the capacity of Director of Avanthi Institute of Engineering and Technology. A versatile personality with rich academic and administrative experience of over 18 years in reputed colleges. He obtained M.Tech (IT) from Andhra University. His wide array of academic qualifications also extends into holding a prestigious Doctorate (Ph.D) in CSE from Acharya Nagarjuna University. He has published 15 research papers in International Journals and also participated in and organised a number of knowledge sharing platforms including seminars, conferences and workshops. He authored A book namely Application of Computational Intelligence to Biology. He has earned many accolades and awards for his exemplary services in Education and Research. He has obtained two Patent rights and has membership in several professional bodies including CSI and IE etc.

Mr. Aravindan Srinivasan is an experienced Assistant Professor with 12 years of teaching experience. He has a strong academic background and is proficient in various programming languages like C, C++, and Java. In addition to this, he has expertise in subjects like Web Design, Operating System, Computer Network, and Cyber Security. Mr. Aravindan Srinivasan's teaching philosophy is based on a student-centered approach. He believes in creating an environment where students feel comfortable asking questions and can actively participate in the learning process. He also emphasizes practical learning and encourages his students to work on real-world projects. Apart from teaching, Mr. Aravindan Srinivasan is also actively involved in research and has published several papers in reputed journals. He is a dedicated educator who is committed to helping his students achieve their goals and reach their full potential.
