

Dr. C. Esther Jeyanthi, is currently working as Associate Professor in the Department of Physics, Panimalar Engineering College, Chennai 600123. She has 15 years of teaching experience. She received her U.G and PG degree with distinction in Physics at Manonmaniam Sundaranar University. She received her Ph.D., in Bharathiar University, Coimbatore. She has published more than 25 research papers in refereed international journals and various international conferences. She has received best paper awards for her research papers in international conferences. Her areas of research include Nanomaterials, Solid Oxide Fuel Cells and Crystal Growth. She has received the best teacher award in 2010 at Vel Tech Engineering College, Avadi, Chennai. She is an active member in the Indian Association for Crystal Growth. She has completed UHV courses conducted by AICTE.

Dr. Swapna Ramella, is currently working as Associate Professor in the department of Physics, Avanathi Institute of Engineering and Technology, Cherukupally (Village)-Near Thagarapuvilasa Bridge, Vizianagaram, (Dist): Pin-531162, AP,India. She received Ph.D with specialization in the Thin Film Technology from MIT-Tiruchy, Tamil Nadu. She is a member of OSA and IAAC. She achieved prestigious award of Dr. Serepalli Best teacher and Researcher from IMRF Institute of higher education. She has more than 15 papers in International Journals like SCI, Scopus and UGC. She attended several international conferences, FDP's and seminars.

Dr. A. Jagadesan is currently working as Assistant Professor in the Department of Physics, R.M.K Engineering College, Kavaraipettai 601206. He has 15 years of teaching experience. He received his U.G degree with distinction in Physics at University of Madras. He received his Ph.D., degree with highly Commended in Anna University, Chennai. He has published more than 8 research papers in refereed international journals and various international conferences. He has received best paper awards for his research papers in international conferences. His areas of research include Crystal growth, NLO material and Nanomaterials. He has completed many online courses offered by AICTE, IIT, NITTR, Infosys springboard, Coursera, etc. He is active member in Indian Society for Technical Education and Senior member of HKCBEEs.

Dr. D. Senthilkumar received his doctoral degree from VIT-Vellore in 2014. His research interest is on Optical CT device development for reading tissue-equivalent gel dosimeters, and fabrication of thermoluminescent dosimeters for neutron detection in the radiotherapeutic process. He is a Fulbright Fellow at the University of Minnesota-Medical School, MN, USA (2011-12), and a Postdoctoral Investigator at the Universidad de Guanajuato, Mexico (2015-17). He is having 10 years of teaching and 9 years of post Ph.D. research experience. He has published several research articles in peer-reviewed journals, two books, and a book chapter on Radiation Dosimetry. He is a life member of the Indian Physical Society, Indian Society for Radiation Physics, and Indian Association of Physics Teachers.
