

Dr. G. K. Jabash Samuel working as an Associate Professor in the Department of Electrical and Electronics Engineering at Rohini College of Engineering and Technology, has about 18 years of teaching experience. He received his B.E degree in Electrical and Electronics Engineering, M.E. degree in Power Electronics and Industrial Drives and Ph.D In Electrical Engineering from Anna University Chennai. He has published more than 20 research papers in refereed international journals and various international conferences. He has received several awards for his research papers at various international conferences. His areas of research include Smart Grid, Control of electric power grids, Renewable energy systems and Micro grid. He is an active member of IEEE and ISTE.

Dr. T. Santhana Krishnan (Senior Member, IEEE) received the bachelor's degree in electrical and electronics engineering and the master's and Ph.D. degrees in management and systems from Madurai Kamaraj University, in 1999 and 2001, respectively, the master's degree in power electronics and drives from SRM University, in 2005, and the Ph.D. degree in electrical engineering from Anna University, Chennai, in 2020. He is currently an Assistant Professor (SG) with the Faculty of Electrical and Electronics, Rajalakshmi Engineering College (Autonomous). His specializations include power electronics and drives, special electrical machines, and renewable energy systems. His research interests include DC-DC soft switched resonant converters and wind energy conversion systems. He is an Active Life Member of ISTE.

Dr. G. Durga Prasad working as an Associate Professor in the Department of Artificial Intelligence, Sri Vishnu Engineering College of Engineering, has about 14 years of teaching experience. He received his B.Tech. degree in Electronics and Instrumentation Engineering, M.Tech. in Power Electronics and Ph.D. in Power Electronics in the year 2017. He has published 39 research papers in refereed international journals and various international and National Conferences. He has received best paper award for his research paper at international conferences. His areas of research include Multilevel inverter, Control Strategies, MLI switch Fault Identification using Artificial Intelligence, Renewable energy systems and Teaching pedagogy. He is an active member of IE(I), IAENG, etc.
