

Dr. R. Meganathan is working as an Associate Professor in the Department of Computer Science & Engineering at KL University, India. With over 25 years of teaching experience, he holds a PhD in Computer Science from Sri Satya Sai University of Technology and Medical Science in India. He has worked in both the industry and academic sectors for the past 25 years, having served in India, Ethiopia, and the Sultanate of Oman. He has also published research papers at international conferences and possesses extensive experience in using and administering MOODLE on the Linux platform, as well as in vulnerability assessment, incident handling, and penetration testing. Being a lifetime member of the Indian Society for Technical Education (MISTE), he has been recognized with several honors, among them the Best Innovative Teaching and Learning Practices Award twice in 2012 and 2013 during his tenure at Higher Education Institutes in Sultanate of Oman.

Mr. Aravindan Srinivasan is an experienced teacher with 12 years of experience in the field of computer science and engineering. He has been teaching a range of subjects including C, Java, Computer Network, Internet Technology, Software Engineering, and Network Security. His research area of interest is Mobile Adhoc Network (MANET), which is a self-configuring network of mobile devices connected by wireless links. His research work in MANET involves developing new routing protocols for adhoc networks that can provide efficient and reliable communication in dynamic and mobile environments. Apart from teaching and research, he is also an active member of the Indian Society for Technical Education (ISTE). As a professional member, he has been involved in organizing workshops, seminars, and conferences related to the field of computer science and engineering. He has also contributed to the development of the ISTE curriculum for computer science and engineering.

Mr. S. Kesava Rao is an Assistant Professor in the department of Computer Science and Engineering at Avanathi Institute of Engineering and Technology, Cherukupally (Village), Near Tagarapavalasa bridge, Vizianagaram (Dist)-531 162. he holds a M.Tech in CSE from JNTUK, Kakinada and is registered Ph.D in GITAM University. He is having 12 years of experience in the field of Computer Science and Engineering. He has been teaching a range of subjects including C, Java, Python, Machine Learning, Computer Network, Software Engineering, and Network Security. His research area of interest is Machine Learning and Deep Learning. His research work in Machine Learning involves facial expressions recognition which has the potential to predict the impact of teacher and student's emotions in a classroom environment. As a professional member, he has been involved in organizing workshops, seminars, and conferences related to the field of Computer Science and Engineering.

Mrs. R. Rajeshwari is an Assistant Professor in the department of Computer Science and Engineering at Panimalar Engineering College Near Poonamallee, Chennai-600123. She holds a M.E in CSE from Kalasalingam Institute of Technology Under Anna University, Chennai. She is having 5 years of experience in the field of Computer Science and Engineering. She has been teaching a range of subjects including C, Java, Python, Machine Learning, Computer Network, Software Engineering, and Network Security. She has the potential to predict the impact of teacher and student's emotions in a classroom environment. As a professional member, he has been involved in organizing workshops, seminars, and conferences related to the field of Computer Science and Engineering.
