Dear Sir,

Thank you for your subscription towards the membership of MRSI.
Your membership No. is **LM B 1066**

As you are aware, MRSI is devoted to the propagation of Science and Technology of Materials and for increasing the interaction amongst the scientific, technological and public personnel. MRSI has 16 Subject Groups and 16 Chapters.

Kindly feel free to contact me for any further details.

MRSI is your organization and your active involvement is essential for its activities.

With regards

Sincerely yours

(S B KRUPANIDHI)

IAENG is a non-profit international association for the engineers and the computer scientists. IAENG has been found by a group of engineers and computer scientists from over thirty different countries. Our goals are to promote the co-operation between the professionals in various fields of the engineering and to cultivate an environment for the advance and development of the technology. Our objectives include:

- Promoting the interactions between the engineers;
- Advancing the application of engineering techniques from the academics to the industry;
- Facilitating the exchange of information and ideas among the engineers and scientists freely.

This letter is to certify that the above person is an IAENG member. For the information about IAENG Membership, please visit our website <http://www.iaeng.org/membership.html>

If you have any question, you are very welcome to contact us at any time.

RESEARCH & DEVELOPMENT CELL

Avanthi Institute of Engineering & Technology has established scientific industrial R&D operations with the purpose and mission of pursuing and promoting research in frontier technologies as well as various engineering disciplines.

AIET created a Research and Development cell to instill research and innovation talents in staff and students. R&D Cell provides a platform for young brains in the Institute to grow in terms of creativity and invention. We believe only rigorous R&D efforts will result in innovative achievements.

In our college, we encourage student clubs as they allow students to explore their ideas, develop their abilities, and prepare them for life. Student groups provide a forum for the exchange of novel ideas and perspectives. It aids in the transformation and overall development of students. The clubs are specifically designed to assist students in becoming involved and finding their own space on campus.

Sub: Requesting to held a Meeting regarding Research & Development cell

Respected Sir,

I would like to ask you permission to allow us to conduct a meeting regarding the activities and further developments in R & D cell. I am conducting the meeting among all the coordinators from all the departments.

The meeting would last about 1hour and would be arranged at a time convenient to the faculty schedule. If you agree, kindly sign below acknowledging your consent and permission for me to conduct this meeting at our conference hall.

Your approval to conduct this meeting will be greatly appreciated.

Sincerely,

Dr. Avinash Ben

AGENDA

- To discuss the policy of the promotion of research activities.
- To Provide the opportunity for the students to actively participate in the club activities.
- To discuss about the initiation of Incubation Centres

Meeting Outcome:

- All the Department Hods discussed about their 21-22 Academic year contributions of faculty and students regarding research activities.
- The Principal has insisted to all the HoD's to cope up all the students to actively take part in club activities and to take necessary action plans in beneficial to the students.
- The R & D Cell has emphasise the need of Incubation centers in order to inculcate research at student level.

Finally ensured all the agenda points and meeting was closed with mutual wishes and also decided to have a review meeting once for every 2weeks.

IMPORTANCE OF STUDENT CLUBS:

Every year, the institution organizes a number of events. Students' clubs provide a venue for interaction among themselves and with events from the outside world. They can be official or casual, but they bring out the enthusiasm in young people and help them develop their organizational skills. The clubs provide a nice balance of work, enjoyment, and leisure activities, ensuring students' overall growth.

The following are the student clubs which were setup during the academic year 2021-2022.

CLUB IOT

Logo:

About:

Welcome to the future, where everyone and everything is connected to the internet. We already use THE INTERNET OF THINGS in our daily lives, with smart phones, tablets, computers, and televisions that are internet-connected. These devices are intended for internet use. People are now using the internet; if it begins to use things, our lives may be made easier. The Club IoT is a resource for the most recent information on the Internet of Things.

Objectives:

- Make aware about modern IOT tools and methodologies
- Acquire knowledge in current IOT research domain and IOT application
- To enhance technical skills in the IOT domain
- Influence professional practice in technical education
- Develop the project prototype by channeling development in terms of academic qualifications and imbibing training.

Participants : Faculty and students
Topic : “The Theory of Computing”
Speakers : Students of CSE-A.Bhagya Sree & G.Sai Tarun

Report on Seminar “The Theory of Computing”

A Seminar was conducted on The Theory of Computing at 10.30AM in ECE E-Classroom. The seminar was delivered by Students of CSE-A.Bhagya Sree & G.Sai Tarun . The Seminar was all about computing algorithms that operate on computer devices and programming languages and how it will limit the halting problem in computing devices and also he has explained the computational methods of which an algorithm could be written. The Students had acquired knowledge regarding the computation methods.

Lecture delivering by the CSE- G.Sai Tarun

Finally, the session came to an end by clarifying participants doubts. Participants were motivated towards the Research.

CREXTA CLUB

Logo:

About:

To improve and impart futuristic and innovative technological education for the excellence of Electronics and Communication Engineering with new ideas and innovation to meet industrial expectations and social needs with ethical and global awareness reinforced by an efficient research platform for the advancement of humanity. Through its innovative hardware and software, Crexta Club is dedicated to providing the finest experience to students, educators, creative professionals, and consumers worldwide.

Objectives:

- To technically strengthen the students by integrating their skills in the various fields of Engineering & technology, to cope up with the highly competitive environment.
- To skill students to the updating analysis methods and design techniques.
- To encourage students towards research objectives.
- To get the students of Crexta club placed into the core organizations

Report on Seminar "Design flow in VLSI using Cadence Tool"

A Seminar was conducted on Design flow in VLSI using Cadence Tool at 10.30AM in ECE E-Classroom. The seminar was delivered by Students of ECE-K.Nikhil & E.Navya Sree

Lecture delivering by the student- K.Nikhil

The Speaker has introduced a modernized outcome in VLSI i.e., Cadence tool. She has taught several applications in schematic drawing, layout and simulation. The Students has acquired knowledge regarding the Cadence tool and its applications.

Finally, the session came to an end by clarifying participants doubts. Participants were motivated towards the Research.

SPARK

Logo:

About:

The SPARK is a student-run organization that provides resources, hosts activities/events, and aims to build a welcoming social setting for electrical & electronics engineering students and anyone interested in electrical engineering. We represent the electrical & electronics engineering students to the other branches, Faculty, and to external organizations by giving them a voice in academic affairs and open opportunities to interact with professional engineers and researchers. It advocates for electrical engineering students' needs to the faculty & department.

Objectives:

- To enhance the technical innovativeness of our institute students by organizing the workshops and competitions on various technical level in order to attract the interest of the students towards technical aspects of their education.
- To develop a comprehensive knowledge of electronics and bring about projects based on core electronics gave the initiation to Electronics Club activities.
- To provide a platform where the students can put their innovative efforts and clear their doubts to transform them into reality.
- To enhance the opinion and the dissenting opinion through the club's activities.
- To provide an exposure to the latest updates in the field of electrical engineering

BUILDERS' CLUB

Logo:

About:

To bring in incredible innovation for the benefit of society at large through the Civil Engineering domain, such as innovative buildings, innovative building materials, innovative bridges, green buildings, green pavement, and so on, this will serve the community and improve the nation. This Club in the Department of Civil Engineering was formed with the sole purpose of harnessing the creative potential of Civil Engineering students in order for them to become more professional in engineering as a career in the future and serve the nation.

Objectives:

- To develop students' leadership and creative abilities.
- To establish a forum for boosting industrial ties.
- To organize seminars to produce sought-after young graduates.
- To raise public awareness about environmental protection and the necessity of sustainable construction.
- To identify business prospects in sustainable construction.
- To create innovative waste management solutions.

MECHA MORPHIS

Logo:

About:

The mechanical engineering students' clubs, Mecha Morphis, of the AVANTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY strives to play a significant role in the development of students as engineers through a variety of extracurricular and extra-curricular activities. Mecha Morphis seeks to instill in its members a knowledge and respect of not only Mechanical Engineering but also other Branches. Mecha Morphis seeks to be a platform for all AIET students in general, and especially for ME students, through its activities. Mecha Morphis aspires to be an active club within AIET's ME department that supports their career interests.

Objectives:

- To organize academic events with the goal of developing members' knowledge and experience in many areas of Mechanical Engineering.
- To organize recreational and social activities among members in order to build camaraderie and allow for the exchange of ideas in a relaxed setting.
- Represent mechanical engineering students' interests before the department and the institution.
- To encourage members' friendship, cooperation, and interaction.
- To serve as a communication channel between members and the mechanical engineering department.

ENTREPRENEURSHIP DEVELOPMENT CELL

An Entrepreneurship Development Cell was established in the college to encourage the students' sense of entrepreneurship. The Cell strives to establish an entrepreneurial ecosystem on campus and offers students a platform to develop ideas into financially viable technological businesses. The cell's goal is to outfit faculty members who are enthusiastic about putting programs into action. Since its start, the cell has pushed students to consider options outside of internships and jobs. To boost the students' business spirit, numerous inspirational speeches and awareness campaigns are held.

MINUTES OF MEETING - ED CELL

The minutes of the E & D cell meeting held on June 09, 2021, at 03:00pm in the conference room.

Members Participated:

S. No.	Name of the Faculty	Designation	Department
1	Dr.V.Sai Prasanth	Institute Level Coordinator	MBA
2	Dr.A.M.Venkata Praveen	Member	MECH
3	Mrs. S.Jhansi Rani	Member	EEE
4	Mrs. K.Swetha	Member	ECE
5	Mrs. Ch.Sravanthi	Member	CSE
6	Dr.K.Sandhya Rani	Member	BS&H
7	Mrs.K.Swetha	Member	MBA

AGENDA:

- 1.To Plan for events in 2021- 22
- 2.Discussion about the guest to be invited
- 3.To motivate student for actively participate.

Meeting Outcome:

- The discussion on how many events to be organized was concluded by keeping the count to a minimum three events in the academic year 2021- 22.
- The committee suggested to include government officials as chief guest.
- Inculcating Entrepreneurial skills by giving students as much insights into starting their own venture. Using sustainability as key. This will cover aspects of making business plan, understanding start up policy and government incentives and to make them aware of funding aspects.

HACKATHON 2021-2022

The development of cost-effective society-related projects is promoted at the college level. Other initiatives for knowledge development and transmission include the college's Coding Club's coding contests and hackathons. Dassault Lab and the CM Centre of Excellence (funded by APSSDC) are available at the college. Students will be exposed to their national and worldwide surroundings and inspired to innovate as a result of these activities. Students are given financial assistance in order to present their models at idea generation contests hosted by other organizations. Students are also given the opportunity to learn techniques for commercializing their products. Local entrepreneurs are invited to speak to and motivate students through various awareness programs and seminars.

HACKATHON REPORT

The college has held a Tech-ALOHA Internal Hackathon for SIH-2022, which encourages new innovative ideas and issues statements with answers. This has been done in an inter-disciplinary manner. The event began at 10:00 a.m. on the 18th and 19th of March, 2022. The hackathon lasted 24 hours and saw the participation of 30 teams with a team size of 3 to 4 individuals and a requirement of 1 female for each team. The problem statement for the hackathon was carefully curated with respect to the app development, web development, and machine learning domains, and the difficulty was set keeping in mind the hackathon's goal of serving as a stepping stone into the world of hackathons for second- and third-year students from every discipline. The event began with the motivational words of Mrs. P. Sri Lakshmi, the event's head coordinator, and was followed by a speaker session that invited all types of problem statements and questions from the participants. The first round of coding began at 11.30 a.m. The event was held on an offline platform, where all teams were assigned tables to debate ideas and connect with one another. The projector has been used by the participants. The first round began at 1 p.m., with experienced mentors guiding participants and providing important insights on their developmental tactics. The demonstration in front of a panel of judges was followed by a rigorous questioning round after an exhilarating and exhausting day. The results were proclaimed following a truly contested round, followed by the selection of 15 teams out of 30. The event was a big success, with positive feedback from all participants.
